Luke Feldmeier
Owner, CEO, Career Coach

Luke currently works for Bloom Energy as the **Director of Business Development**. With a **background in engineering and a proven track record in several leadership roles**, he has transitioned into the realm of business development. Luke's dedication to professional growth led him to complete the London Business School Executive Education program, reinforcing his commitment to an executive career path. He is also a Professor of Engineering Leadership and Career Acceleration at **Villanova University College of Engineering**.

He started this coaching side passion/business because he found through his several leadership roles that he enjoys developing others and **helping them find their career success**.

YOUR CAREER COACH

Jennifer Marvin
VP of Aerospace Engineering

Jen Marvin is a seasoned engineer and a specialized career coach with a distinct focus on assisting aerospace engineers in advancing their professional journeys. While her expertise primarily centers on the aerospace sector, her rich experience has also seen her coaching engineers and technical professionals from diverse backgrounds.

Her profound history in both engineering and leadership, combined with her firsthand experiences as a female engineer, equips Jen with a unique perspective on the challenges and opportunities that engineers face. Her multifaceted roles as an engineer, leader, and mother make her an exceptional coach, adept at guiding engineers to elevate their careers.

YOUR CAREER COACH

Abraham Kim
VP of US Biotech and
Pharmaceutical Engineers

Abraham Kim is an engineering leader who is passionate about coaching and developing others to achieve their personal and professional goals.

Abraham focuses on coaching individuals in the medical device and pharmaceutical industries given that is where his education and engineering career has been.

His breadth of experience in those fields allows him to provide insightful guidance for those looking to grow in their current role or transition to a new one.

COACHING THROUGH EXPERIENCE

Luke Feldmeier
Owner, CEO, Career Coach

Jennifer Marvin
VP of Aerospace Engineering

Abraham Kim
VP of US Biotech and
Pharmaceutical Engineers

Where our coaches bring value in comparison to typical career coaches who may only have an HR degree, is that they've been where you are and through experience as an engineer and leader understand what you do as a technical professional and what recruiters and hiring managers look for.

SUCCESS TESTIMONIALS

“I thought I was getting a lot of recruiter hits on my own, but am amazed at how much more I am seeing now that we've worked through the Career Accelerator resume and online profile optimization process to get me in front of peers.”

Colin
Manufacturing Leader

“His coaching for my interview helped me build confidence to convey how my experience and skill set made me the best-suited candidate for the role. His perspective as a hiring manager was eye-opening. After we did the mock interview I felt so relieved to know I was on the right track to impress my future employer, and I was thankful for Luke's advice. My interview went incredibly well, and shortly after I received a job offer. Luke's help didn't end there, he coached me on how to follow through with the resignation process and the transition to my new role. Something else of great value in Luke's program is the opportunity to network with other professionals and hear about their successes and struggles to know that you are not alone.”

Mayhell
Project Engineer

SUCCESS TESTIMONIALS

"The one thing that stood out for me about this program is the personalized approach that Luke can provide. Luke really takes the time to understand what it is you're looking for and can provide custom insights and advice. The recruiter network that Luke has is a great advantage as well because that increases your visibility and provides access to roles that would otherwise be difficult to find. Luke really helped me with the job offer negotiation process and convinced me that employers can go above and beyond for the right candidate. I was really interested in a role but the initial base salary that was offered was lower than my expectations. Through Luke's advice, I was able to enthusiastically interview through the whole process and save the compensation conversation for the very end. The employer increased their offer by over 20%!"

Kumail
Industry Consultant

"The Career Accelerator has given me a huge boost in my job search. Since beginning the program I've received dozens of responses and emails from recruiters after receiving almost none before the program. The bi-weekly calls have allowed me to navigate through my job search with Luke's professional expertise helping in all aspects of the process. I highly recommend this program to any engineer looking to progress in their career or to transition to another one."

James
Mechanical Manufacturing Engineer

SUCCESS TESTIMONIALS

“Luke really helped me with complete optimization of my resume and LinkedIn profile so that I could transition into a software engineer role. His advice regarding job salary negotiation, resigning amicably from my employer, and preparing for next steps regarding expectations for my new role was very impactful in my journey to transition to software engineering! Not only I was able to land a SWE role, but I was also able to almost double my total compensation with relocation to Texas!”

Rozzerio
Software Engineer

"I was very fortunate to have had the opportunity of working with Luke during a transformative time in my career. Throughout our sessions, he continuously went above and beyond what I expected. I left each session feeling very confident about the decisions I was considering, and he gave me the tools to have the best possible chance at succeeding. I already have, and will continue to, recommend Luke to close friends and colleagues in need of a top-tier career counselor and coach."

Rishabh
Sr.Automation & Infrastructure Engineer

SUCCESS TESTIMONIALS

“Luke helped me at all stages of my job search from resume preparation to networking with recruiters, interview process, salary negotiation guidance and even first days in the new role. I appreciated Luke’s insight in all aspects of job search and specifically with the interviews. Interviews for managerial/director level roles focus quite a bit on leadership and I felt better prepared for real interviews after practicing mock sessions with him. Even though my journey to find a new role took some time, Luke didn’t give up and continued to provide his support until I found the right role.”

Umesh

Director of Systems and Test Engineering

“Luke’s career accelerator program helped me specifically in preparing for the interviews which gave me a lot of confidence to appear for the job interview. His insights and evaluation were particularly helpful in minimizing the errors during the interview. Luke is very flexible in terms of accommodating last minute requests and managing schedules. Luke also helped me shine my resume. I highly recommend this program to everyone who wants to make a lucrative career but does not have adequate resources or guidance”

SUCCESS TESTIMONIALS

"I was struggling to find a coach at my job when Jen reached out to me about being a coach in the Career and Leadership Accelerator program. I looked into the program and saw the impact it had on others. I decided to sign up and work with Jen who ended up being a great sounding board. She helped me understand more about the engineering industry and encouraged me to explore and entertain any interests I had in other positions. The modules on their website helped guide me through differences exercises and Jen provided the feedback I needed to confirm I was on track to succeed. My favorite part about our interactions was the ability to strategize with Jen about how I should approach interactions or conversations. In the end, I was able to negotiate a very significant pay raise along with a promotion and my first supervisory position. I highly recommend Jen to any female engineer interested in improving or accelerating their career trajectory."

Helen
Sr. Systems Engineer

"I'm very thankful to find the Career Accelerator Program as they helped me to better prepare for my interview and negotiate for a better job offer. I highly suggest to anyone interested in taking their career to the next level to use the Career Accelerator Program. This program is well designed with instructional modules, weekly group calls and one-in-one coaching. Luke and Jennifer are great mentors, leaders and experienced professionals who truly care about helping you to achieve your next dream job."

SUCCESS TESTIMONIALS

"From the moment we started our coaching sessions, Abraham displayed deep understanding of the nuances of career development. His mentorship was not just about providing advice but about truly understanding my aspirations, strengths, and areas for improvement. Abraham's ability to ask thought provoking questions helped me gain clarity on my goals and create a well-defined career strategy. With his help I was able to get more exposure to better opportunities that ultimately led me to my new job!"

Kayla

Cell Therapy | MSAT | Manufacturing

"I'm extremely grateful to have had the opportunity to work with Abraham as my career coach, and I wanted to share my experience with others. Overall, Abraham was a powerful resource for me in stimulating my career development journey. Abraham offered industry-specific insight as well as general tips in the professional workplace. With his guidance and direction, I was able to deposit my energy in the most effective way to get my closer to my career and personal development goals."

Abdullah

Maintenance Engineer

"I enjoyed working with Abraham! Not only did he provide a lot of useful tools for navigating corporate life as a leader, but I also valued his perspective and approach to coaching. He's patient, a great cheerleader, and wants to see people grow."

Aimee

Senior Engineer

OUR ORGANIZATION IS A PROUD MEMBER OF THE

Because of our consistent success in supporting engineers with finding rewarding jobs and advancing their careers, this coaching organization has been selected to be a member of the prestigious Forbes Coaches Council, an Invitation-Only Organization For Senior-Level Executives in the coaching industry. They are composed of respected leaders and executives who have in-depth experience and success as executive coaches.

MEET OUR PROGRAM ADVISOR

Taking the lead on your discovery (Zoom) call will be **Earl**, our senior program advisor.

During the call, he will try to learn about your background and understand your goals. You will also learn from him about how our coaches work with our clients to find their career success. This way, if there's a match, he will let you know what the next steps are to sign up and schedule your first session with any of our coaches

HOW DOES IT WORK?

There are a lot of resumes and people out there looking around to get jobs.

Of 10 people with similar backgrounds, it's the ones who can best convey how their experience applies to what recruiters and companies are looking for who land the interviews and jobs.

We found out **you can get hired** over someone with better experience by having a **better resume**, **better online job profiles**, and **better interview skills**.

EACH PROFESSIONAL IS UNIQUE.

Our coaches understand that each professional has **different needs and interests**, so they ultimately cater to what **you need**.

THE CAREER SUCCESS ROADMAP

5. Land your **higher paying**
and rewarding **new job!**

4. Interview Prep
Personalized to You

Guides, practice questions,
and practice interviews to
make you stand out
compared to peers

3. Optimized Job Search

Better resume + optimized online
profile + recruiter networking +
application strategy = MORE
opportunities, higher pay, better
quality jobs

2. Make you Marketable

Personalized optimization of your
resume and online job profiles (by
someone who has been there) to
make you stand out compared to
peers

1. Map Your Personal
Career Blueprint

Personalized review of your background and
career interests to map short term, mid term,
and long term career goals

— 2024 —
OFFICIAL MEMBER

Forbes
Coaches
Council

STEP 1: MAP OUT A PERSONAL CAREER BLUEPRINT

As a typical process overview, you and your coach will: Explore details about **your background** and **career interests**, pull out the information that recruiters and companies are looking for in candidates.

Map out a career blueprint with various pathways to get into your desired role. It includes both **short-term** for your next step, **mid-term** and **long-term** career planning.

— 2024 —
OFFICIAL MEMBER

Forbes
Coaches
Council

STEP 2: MAKE YOU MARKETABLE

Make you marketable external to your company by **optimizing your resume** and **online career profiles** with the **key components** that recruiters and companies are looking for to **get you recognized** and in front of peers, so recruiters and companies are **reaching out to you**. This is the first method of landing your next job.

KEEPING YOUR OPTIONS OPEN

Even if you aren't looking to leave your company, this helps prepare information for internal interviews and gives you a pulse on the opportunities and compensation **available to you** outside your company.

LEADERSHIP RISE: INTERNAL NETWORKING STRATEGY

If also interested in staying with your existing company, your Coach would develop and execute a networking plan to build your image, rapport, and reputation so you're recognized as being ready to move into leadership, again in front of peers. It includes putting you in front of HR and leaders, learning what's important to them for you to move into a leadership role, and so that they're aware of your career interests and have you in mind for future leadership roles.

STEP 3: OPTIMIZED JOB SEARCH

Your new resume/profile will also be used for **direct applications** based on the application strategies you and your coach will be discussing.

— 2024 —
OFFICIAL MEMBER

Forbes

Coaches
Council

STEP 3: OPTIMIZED JOB SEARCH

CONT'D

Your updated resume will be sent to your coach's recruiter network.

Over the years as engineers, through several leadership roles, and as a career coaches, they have established **a network of recruiters.**

They're more than happy to support clients from a career coach who they know are now looking for a job and have sharpened resumes and interview skills, so they are more likely to succeed in job placement.

STEP 4: INTERVIEW PREP PERSONALIZED TO YOU

You and your coach will **prepare for interviews together**, utilizing the tools available on the website (practice interview questions, Do's and Don'ts of interviews, managing interview nerves) and through doing a practice interview.

Your coach will focus not only on the 'what' to update in your resume and interview discussion but also on the 'how' when it comes to presenting the information and presenting yourself.

RETURN ON INVESTMENT

INVEST IN YOUR FUTURE!

- One intent of the program is to **quickly return your investment.**
- For example, if your annual income increases by \$24k, that's **\$2k per month more in your pocket.**
- For those who are more motivated by achieving a new rewarding career path in a different company or industry, that is a **lifestyle return** on your investment.
